

Hands-on Internet of Things Specialization

IoT Networking

Week 3 Honors

Question 1:

Check what applies to you (pick all that apply).

- **I have finished the lab assignment for week 3 honors section.**
- **I have posted the discussion forum entry for week 3 honors section and responded to at least two entries of my peers.**
- **I certify that I have completed these tasks to my own and best efforts, and that I am able to explain what I did.**

Question 2:

If you did the lab, you should know the answer to this question. In this step of the lab, what command is used to get information on versions of wifi network protocols supported by your wireless network interface, as well as signal strength?

iwconfig
